Anbalayam

Anbalayam is a charity foundation in South India which supports orphaned and destitute children. About 60 of these children were living in a dilapidated building and struggling for food until the **Philadelphia Indian Community** reached out and built a new home for them. Your tax deductible donation will enable us to build a corpus fund to care for these children. For those who donate \$100 or more, special meals will be given in their name on their special day (e.g. kids birthday, wedding anniversary) and a picture taken on that day will be emailed to you.
