

Samyuktha Natesan

Donating to ABC Initiative

My name is Samyuktha, and I want to talk about why I wanted to donate to TNF, and why TNF is such a great and empowering foundation that we should all support.

One year, when my family and I visited India, I saw one of the schools in rural India that TNF was helping through the ABC project. My brother was there helping some students better leverage 21st century tools and techniques to advance their education, where many lacked basic literacy skills to be in the grade they were.

When I went, it was so humbling to see all that TNF was doing for these kids, and how we are all so blessed to have the life we have. Something as important and as necessary as learning to read and write, wasn't available for these kids. But, TNF was able to give these children the opportunity to learn and grow, and the resources to thrive, and reach their dreams. My experiences with TNF have really made me grateful for all that I have, and have made me able to

empathize with these kids, which is why I chose to donate to this wonderful and inspiring cause and to share my blessings and gifts received during my arangetram for this wonderful and inspiring cause. I know for a fact that TNF will continue to make a difference by enriching and empowering those who need it the most.

And lastly, I want to thank everyone who is a part of, or who support TNF, because the resources and education you've granted these students, not only make a difference in their lives, but they make a difference in our world.
